Precise Surface Profile Measurement at Highway Speeds
DOT Compliant QA/QC Testing on All Pavement Types

Meets ASTM/AASHTO Standards

Easy Collection & Analysis Software

Productive & Reliable (=Quick ROI)

Profiling System Specifications

- Collect data up to 65 mph (105 kph)
- Meets **E950**, **M328, R054, R056-057**
- Meets or exceeds all Class I requirements of **ASTM E950**.
- 1 inch sampling interval at all collection speeds.
- Features LMI Technologies' new 5 kHz Gocator **wide beam lasers** for asphalt and concrete pavements.
- ±5g rated Accelerometers with 0.0001g accuracy.
- Proven ability to replicate wavelengths of ~0.25 feet (7.62mm) in excess of 760 feet (231.6 meters).
- All sensors and electronics removable for reuse on any SSI profiling system.

Compliance and Equipment

- Complies with all commonly used agency specifications.
- Equipped with industrial grade sensors and connectors.
- Core electronics manufactured in an ISO 9001 facility.
- **TOUGHBOOK** rugged computer on all systems.
- Custom docking station mount for comfort and access.
- All systems run off of a 12 volt power supply

Operation, Training & Support

- One person operation. All in cab operation.
- Speed range: 1 inch sampling for all speeds (5-65 mph)
- Operating ambient temperature range: 32° to 110° F
- Moisture: profiling system components impervious to moisture (but quality of data degrades on wet pavement).
- Worldwide multi-lingual operator training available.
- Automatic software updates with SSI Profiler 3 v2014
- In field replacement of portable, modular components.
- **Warranty** and rapid response **customer support** on all profiling system components and operations.
- **Options:** high resolution GPS (RTK corrected) with CAD output, HD camera, rut measurement, printer and more.

Best-In-Class Profiling System Software

- Windows 7/8 Professional software programs.
- Easy calibration instructions for bounce test, laser verification, accelerometer and distance calibrations.
- On screen visual aids and fast reporting of profile results.
- Support for Google Earth, Google Maps and Microsoft MapPoint .
- Navigate to locations within profile data using real time **GPS Tracker** and navigational/mapping capabilities.
- User selectable parameters for English and Metric units.
- Real time data display of profile trace.
- Electric Eye data triggers on each side of system function at 30+ feet (10+ meters).
- User programmable keyboard shortcuts
- SSI "Continuous Collection" software suspends collection below 5 mph and resumes when speed exceeds 5 mph.
- Pause areas integrated into collection. View paused areas separately or exclude.
- Multiple Profile Indexes: **IRI** (International Roughness Index, Mean IRI (**MRI**), Half Car Ride Index (HRI), Profile Ride Index (**PRI**), Ride Number (RN).
- Multiple outputs for **Areas of Localized Roughness:** IRI based roughness based on user specified thresholds; Rolling Straightedge, Profilograph must-grind bump template, Texas 1001-S localized roughness,
- Raw data is rewritable: change parameters at any time.
- User defined filtering values for high and low pass filters.
- Patented multiple trace reporting capability.
- Export data into **PROVAL** (PPF, ERD), PDF, Excel, CSV, PRO, CAD, Survey, GIS, and Text
- Data is encrypted for security.
